290	Overview

Da oltre sessant'anni progettiamo e realizziamo maniglie in ottone. Eccellente qualità, creatività e continua ricerca per un prodotto altamente affidabile di elevato valore estetico, interamente lavorato in Italia.

We have been designing and manufacturing brass handles for over sixty years. They embody excellent quality, creativity and continuous research into the manufacture of highly reliable and aesthetically pleasing items made entirely in Italy.

Dalla scelta dell'ottone, italiano e di primissima qualità, fino all'imballaggio della maniglia finita, l'intera produzione viene seguita con la massima cura e dedizione, in Italia, nel distretto della Brianza. Per questo MANDELLI1953 marca tutti i suoi prodotti con il logo "100% MADE IN ITALY". Quello che il marchio MANDELLI1953 esporta nei paesi esteri non è solo un prodotto d'eccellenza, ma un'intera cultura dell'oggetto realizzato ad arte, del saper fare italiano derivato da antiche tradizioni di alta artigianalità che negli anni ha saputo utilizzare le migliori tecnologie.

From the choice of the brass, which is of the highest quality and wholly Italian, through to the packaging of the finished handles, the whole of the production process is characterised by great care and attention to detail, here in the Brianza district of Italy. MANDELLI1953 marks all its products "100% MADE IN ITALY". The brand that MANDELLI1953 exports is not only a mark of excellence, but represents all the culture, art and manufacturing ability that has emerged from its Italian traditions, heritage and craftsmanship, while always, through all these years, drawing on the finest technologies available.

Ogni azienda nasce da un sogno e quello del fondatore di Mandelli Maniglie aveva il colore dell'oro: l'ottone. Correva l'anno 1953. Passione per la bellezza e ingegno che genera innovazione: il saper fare consiste in questo ed è un valore in cui MANDELLI1953 si riconosce da sempre. Oltre sessant'anni di storia sono un patrimonio di sapienza artigianale prezioso, cui si aggiungono, dedizione, abilità manuale e tecnologia industriale per spingere l'azienda a produrre costantemente nuovi modelli, tecnologicamente all'avanguardia con finiture innovative e sostenibili. La continua attività di ricerca da parte del Centro Ricerca e Sviluppo è mirata a coniugare forma e funzione senza compromessi, ponendo MANDELLI1953 tra le aziende leader nel settore, su territorio nazionale e internazionale.

Every business emerges from a dream and that of the founder of Mandelli Maniglie was a golden dream, and it was all about brass. That was back in 1953. The passion for beauty and the ingenuity that drives innovation is what creates expertise, something that has always been a defining feature of MANDELLI1953. Over sixty years in the business have given the company great experience in the artisanal tradition, to which it has added dedication, manual skills and industrial technology which have together provided the impetus for a constant flow of technically highly advanced models with innovative and sustainable finishes. Constant work in the Research and Development department has sought out the best possible combinations of form and function, while never compromising on quality. All this has gone to make MANDELLI1953 one of the leading companies in the sector, both nationally and internationally.

La qualità per MANDELLI1953 si riferisce, prima ancora che alle indiscutibili caratteristiche tecnologiche dei suoi prodotti, a un insieme di atti, a un codice di comportamento, un misto di testardaggine, strategia della pazienza e passione per i dettagli. Tutte le maniglie vengono realizzate all'interno dell'azienda utilizzando unicamente ottone italiano certificato e dandogli forma tramite forgiatura, tornitura e pressofusione, smerigliatura, vibratura, lucidatura e satinatura – trattamenti galvanici e trattamenti di metallizzazione (PVD) e verniciature. Inflexibile l'attenzione per il ben fatto: sono sempre i particolari a fare la differenza tra un buon prodotto e un manufatto di livello superiore, consapevolezza fondamentale dell'azienda.

For MANDELLI1953 quality means, even before the technology, a whole series of actions, a code of conduct, stubbornness, a strategy of patience and a passion for detail. All our handles are made in our own factory using only certified Italian brass. This is forged, turned, die cast, ground, vibrated, polished and satin-finished on the premises, as well as being treated with galvanising, metalizing (PVD) and varnishing processes. The care taken over the quality of the finished product is unyieldingly constant, where it is the detail that makes the difference between a good product and an excellent one, something of which the company has always been very keenly aware.

## Garanzia

MANDELLI1953, grazie alla qualità dei materiali impiegati ed all'elevata tecnologia di produzione, offre sui propri prodotti una speciale garanzia.

Il periodo di garanzia viene esteso, a decorrere dalla data di acquisto, in base alle finiture.

- 26 – 26D: 4 anni;
- Fluxcoating (MBR, AB, 28, MSN): 5 anni;
- PVD: 30 anni.

La garanzia prevede, a discrezione di MANDELLI1953, la riparazione o la sostituzione gratuita del prodotto considerato difettoso entro il periodo di garanzia.

Qualora il prodotto sia stato nel frattempo eliminato dalla produzione, MANDELLI1953 potrà, a sua discrezione, decidere se sostituire la merce difettosa con prodotti simili o se rimborsare il costo originario dei prodotti.

L'accertamento delle cause, delle responsabilità e la presenza di eventuali vizi di produzione sarà ad insindacabile giudizio di MANDELLI1953. Le spese di invio del campione per tale valutazione sono a carico dell'acquirente.

Accertata la responsabilità di MANDELLI1953 ed il rispetto dei termini di garanzia, le spese di invio di ulteriore materiale e la restituzione degli stessi riparati o in sostituzione saranno a carico di MANDELLI1953, la stessa non sarà in alcun caso responsabile per i costi relativi all'installazione, riparazione e sostituzione come di danni o perdite lamentate.

## Guarantee

The high quality of the technology and production processes means that MANDELLI1953 offers special guarantees for its products.

The extended guarantee period runs from the date of purchase, the term depending on the type of finish.

- 26 – 26D: 4 years;
- Fluxcoating (MBR, AB, 28, MSN): 5 years;
- PVD: 30 years.

The guarantee provides, at the discretion of MANDELLI1953, for repairs to or the free replacement of the product deemed defective within the guarantee period.

If the product has in the meantime gone out of production, MANDELLI1953 may, at its discretion, decide to replace the defective goods with similar products, or to reimburse the customer the original cost.

Ascertaining the causes of, responsibility for and the presence of any production process defects, are matters for the final judgement of MANDELLI1953. The costs of sending the sample for appraisal shall be borne by the purchaser.

When the responsibility of MANDELLI1953 has been ascertained and the guarantee terms are complied with, the costs of sending any further goods and the return of repaired good or replacement goods shall be borne by MANDELLI1953, while the company shall in no case be liable for costs relating to installation, repair or replacement or for damages or losses complained of.

## Certificazioni

MANDELLI 1953 ha ottenuto presso l'Istituto IFT Rosenheim, organismo che assicura un prestigioso riconoscimento a livello europeo, le seguenti certificazioni:

EN 1906 : 2010: classificazione 47-0040B, una nuova certificazione europea che testa la durata e la resistenza all'usura e alla corrosione di maniglie e pomoli, collocando i prodotti nella fascia più alta (classe 4).

EN 1670 : 2007: una certificazione che colloca i prodotti MANDELLI1953 in classe 4, la più alta classe di resistenza alla corrosione (240 ore in nebbia salina).

## Certificates

MANDELLI1953 obtained the following certificates at the IFT Rosenheim Institute, an institution that assures prestigious European recognition:

EN 1906 : 2010: class 47-0040B, a new European certificate testing durability, static strength and corrosion resistance for lever handles and knobs, obtaining category of use class 4.

EN 1670 : 2007: this certificate gives MANDELLI1953 the highest quality level (class 4) regarding resistance to corrosion (240 hours in salty fog chamber).

MAND

### Componenti flat

MANDELLI1953 propone, su tutti i modelli di maniglie per porte e maniglie DK, rosette e bocchette elegantemente sottili dello spessore di soli 6mm e senza necessità di lavorazioni aggiuntive.

In ogni maniglia MANDELLI1953, il movimento delle martelline è composto esclusivamente da elementi metallici; le parti mobili sono rivestite da una particolare nichelatura antifrizione uniforme, resistente ad usura e corrosione.

Il movimento è stato testato nei nostri laboratori, con i criteri della norma RAL-RG 607/9. La norma prevede almeno 10.000 cicli di utilizzo: le nostre martelline hanno superato i 16.000 cicli, paragonabili ad oltre 10 anni di utilizzo.

### Flat Components

MANDELLI1953 proposes, on all models, the new lowered mechanism for the DK system (6mm).

As with all MANDELLI1953 handles the mechanism is entirely made up of metal components. The moving parts have a special nickel coating that creates a uniform friction-free layer that is resistant to wear and corrosion.

The movement was laboratory tested according to RAL-RG 607/9, and while the standard provides for at least 10.000 turns, the MANDELLI1953 handles were subject to over 16.000 turns, equivalent to over 10 years' normal usage.

## DK di sicurezza

Solo ottone e acciaio. Niente altri materiali più facilmente soggetti all'usura del tempo.

I sistemi di sicurezza delle maniglie MANDELLI1953 sono fatti per durare per sempre. E in più sono invisibili: i pulsanti di blocco alla rotazione sono collocati discretamente sul retro dell'impugnatura, per non alterare la lineare bellezza del prodotto.

La sicurezza, sia dall'interno che dall'esterno, non sacrifica la funzionalità: il sistema è ergonomico e facile da azionare per un adulto. Basta una leggera pressione sul tasto per sbloccare la rotazione e azionare la maniglia. Semplice e immediato, come ogni prodotto ben fatto.

Il DK magnetico di sicurezza è disponibile su piastra ovale solo sui modelli LINK, START e LARIO.

## Security DK Lever System

Only brass and steel. No plastic or any other materials likely to wear quickly.

The MANDELLI1953 handle security systems are made to last forever. They are, moreover, invisible, with the rotation lock buttons discretely hidden at the back of the handle so as not to interfere with their aesthetic look.

Inside and outside security remains highly functional, ergonomic and easy to use. Light pressure on the button unlocks rotation to turn the handle. As quick and easy as any quality product should be.

The secure magnetic DK-lever-system is available for oval plates on LINK, START and LARIO models.

## Green pack

Soluzione progettata e scelta nel rispetto dell'ambiente. Il nuovo packaging MANDELLI1953 è innanzitutto 100% riciclabile nella carta. Inoltre, grazie ad un innovativo metodo di imballaggio, ha l'ulteriore vantaggio di un minor ingombro nelle spedizioni, quindi una riduzione delle emissioni di CO<sub>2</sub> e dei costi di trasporto.

Testimonianza concreta di quanto il marchio MANDELLI1953 sia attento all'ambiente, in ogni fase del processo produttivo.

## Green pack

Designed and selected to be environmentally friendly, the new MANDELLI1953 packaging uses 100% recyclable paper. The innovative packaging system employed has the further advantage that it is more compact on shipping, cutting both transport costs and CO<sub>2</sub> emissions.

It is a concrete example of how the MANDELLI1953 brand cares about the environment, at each and every stage in its production processes.

Sono i dettagli che danno valore a porte e finestre, rivelando il carattere degli spazi che arredano: nasce Atelier Mandelli, dove la cura di un laboratorio artigianale e le risorse di una produzione industriale in continuo aggiornamento si uniscono per soddisfare ogni richiesta progettuale, sia in termini funzionali che estetici.

All that is special in doors and windows is to be found in the detail, as it reflects the character of the space they embellish. Atelier Mandelli came into being to bring together the care and attention of an artisanal workshop and the resources of a constantly updated manufacturing processes designed to meet the needs of any project, both in terms of function and aesthetic design.

### Concrete

Ricerca e sperimentazione ispirano il progetto Juno firmato Alessandro Dubini per MANDELLI1953. Il materiale costruttivo è il cemento, duro e al tempo stesso morbido, quasi vellutato al tatto.

Colori ispirati alle sfumature della terra. Una forma contemporanea ed essenziale per esaltare l'originale scelta del materiale, protagonista incontrastato di questo progetto.

Research and experiment inspire the Juno project of Alessandro Dubini for MANDELLI1953. The construction material used is concrete, which is hard and yet soft, almost velvet to the touch. Colours are inspired by earthy hues, while contemporary and clean forms emphasise the originality and unquestioned leading role of the chosen material.

### Incisa

Incisa è il punto di incontro tra ornamento e design. È la possibilità di ottenere decorazioni precise sulla superficie metallica di base, l'ottone, da cui prendono forma le maniglie MANDELLI1953. La tecnica guilloché, realizzata da un'apposita macchina guidata manualmente, genera un preciso pattern, dove il fascino dell'artigianato e l'avanguardia tecnologica si uniscono per generare infiniti disegni.

Engraving is the point where ornament and design meet. Detailed decoration on the brass of the MANDELLI1953 handles is achieved by the use of such techniques as guilloché, using a manually guided machine. The resulting patterns reflect both the artisan tradition and the employment of state of the art technology in an infinite array of designs.

### Marmo

Tocco di classe sempre attuale nella decorazione d'interni, il marmo, è la proposta ideale per impreziosire i pezzi senza tempo della collezione MANDELLI1953. Fulcro di progetti realizzati ad hoc, suggeriti dall'eleganza e dalle proprietà uniche del Marquinia o del Calacatta. Made in Italy, come nella nostra filosofia.

Marble provides that perennial touch of class to interiors. It is the ideal embellishment for timeless items in the MANDELLI1953 collection. It is the fulcrum of ad hoc projects suggested by the elegance and uniqueness of Marquinia and of Calacatta. Rigorously made in Italy, and entirely in line with our philosophy.

### Leather

Dettaglio morbido e raffinato, per avvolgere i progetti MANDELLI1953. La pelle non poteva mancare in un Atelier, materiale ideale per essere cucito intorno ad ogni singola idea. Lavorato a mano, con esperienza artigiana e una visione ispirata alle più moderne decorazioni di interni.

The soft and refined material is the ideal covering for projects from MANDELLI1953. Leather simply could not have been excluded from our Atelier, being ideal for stitching around each individual idea. It is hand worked by expert artisan hands that work to a vision inspired by the most current interior decoration trends.

L'eleganza dell'oro o la moderna brillantezza del cromo. Effetti antichizzati o raffinate satinature. Ciascun prodotto è in duro e resiliente ottone, mentre un ventaglio di finiture permette poi a ciascuno di scegliere la maniglia più adatta al proprio stile.

The elegance of gold and the modernist brilliance of chrome. Antique looks or sophisticated satin finishes. Every product is made of hard and resilient brass, while a whole bouquet of finishes means everyone can find the handle that best suits their own style.

## Fluxcoating Vitrified

Si può migliorare un materiale già eccellente?

Il Centro Ricerca e Sviluppo MANDELLI1953 ne è convinto; ecco perché è stato messo a punto il sistema FLUXCOATING VITRIFIED, un rivestimento capace di migliorare le qualità estetiche dell'ottone e di mantenerle inalterate nel tempo. Il processo consiste in una serie di interventi preparatori del prodotto e nel successivo rivestimento con speciali resine. Il risultato è un'impareggiabile resistenza agli agenti atmosferici, agli urti ed alle abrasioni.

Il trattamento FLUXCOATING è applicato alle speciali ed esclusive finiture di Mandelli 1953: MBR (brunito opaco), MSN (nickel satinato opaco), AB (brunito antico), 28 (argento vecchio).

## Fluxcoating Vitrified

Can an already excellent material be improved upon?

The research department of MANDELLI1953 is sure that it can; which is why it has developed its VITRIFIED FLUXCOATING system, a protective coating that enhances the appearance of the brass while ensuring it has a long life. The product goes through a series of preliminary processes, followed by the application of coatings with special resins. The result is excellent resistance to weathering, shock and abrasion, while the natural shine of the polished brass remains unchanged.

The FLUXCOATING treatment is available for the following finishes: MBR (mat bronze), MSN (mat satin nickel), AB (antique bronze), 28 (antique chrome).

## PVD

Un ulteriore trattamento applicabile ai prodotti MANDELLI1953 è il rivestimento PVD che presenta ottimi risultati di resistenza all'abrasione, alla corrosione e tenuta del colore nel tempo, anche in ambienti esterni e pubblici.

Elevate sono le caratteristiche tecniche:

- resistenza al test di stabilità alla luce solare UNI 9337 senza alcuna variazione oltre le 1000 ore;
- ottimi risultati in nebbia salina secondo le norme UNI ISO 9227 di resistenza al CASS e al AASS;
- elevata durezza superficiale ASTM B578-93 di 2600 ÷ 2800 HV (un normale riporto di cromo galvanico ha durezza 800 HV);
- perfetta aderenza al pezzo superando il test UNI ISO 4524-5;
- resistenza ad acidi e alcali come acido cloridrico, solforico, cianuri ecc.

Il trattamento PVD è disponibile per i modelli contrassegnati dal simbolo dedicato, solo sulle versioni rosetta/bocchetta e DK.

## Physical Vapor Deposition

An additional treatment applied to some MANDELLI 1953 products is PVD, which renders them highly resistant to abrasion, corrosion and bleaching, as well as making them suitable for outdoor and public places.

The treatment achieves truly remarkable results:

- the bleaching resistance test shows no alteration even after a 1000 hour test, according to UNI 9337 norms;
- high performances for the resistance test to CASS and AAS according to UNI ISO 9227 norms in salty fog chamber;
- very high surface hardness according to ASTM B578-93 norms of 2600 ÷ 2800 HV (standard chrome plated product shows an 800 HV value);
- perfect adhesion, exceeding UNI ISO 4524-5 norms;
- resistance to acids and alkalis (hydrochloric, sulphuric, cyanide etc...).

The treatment is available on models bearing the PVD symbol, that is to say for the rose/escutcheon version, and with the GOLD and CHROME INOX finishes.

La collezione di maniglie MANDELLI1953 comprende visioni e creazioni di un team di autori che riunisce anche designer dei decenni passati, i cui prodotti sono attualmente fuori catalogo. Oggi l'azienda ha ritrovato la vocazione a dialogare con il mondo del design e del progetto affinché designer contemporanei uniscano le loro maniglie ai preziosi classici e ai modelli iconici del marchio MANDELLI1953.

The MANDELLI1953 handle collection comprises the vision and creativity of a team that also draws on the work of past designers from the company and items that may no longer be in production. Today the business has rediscovered its vocation for dialogue with the world of design, where the creative minds of today bring together the contemporary and the best of classic models in the MANDELLI1953 brand's back catalogue.

Il gusto eterno della tradizione, abbinato ad un'alta sapienza artigianale, fa di queste maniglie il complemento perfetto per gli spazi che evocano ricordi senza tempo, reinterpretati in chiave moderna.

Everlasting taste provided by the tradition, combined with artisanal heritage, ensures these handles are in perfect harmony with spaces that evoke timeless memories, reinterpreting the past in a contemporary aesthetic.

Il catalogo e i prodotti sono soggetti ad aggiornamenti.

Le colorazioni e le raffigurazioni visibili sul catalogo hanno valore puramente indicativo e possono presentare leggere differenze dal prodotto originale in quanto riportate con un procedimento di stampa.

Eventuali discordanze tra prodotto finito e rappresentazione non costituiscono motivo di reclamo, essendo l'ordine effettuato l'unico parametro di riferimento.

Le quote riportate sono indicative e potrebbero avere lievi differenze date dal fatto che le nostre lavorazioni sono realizzate a mano.

Modelli e marchi depositati.

Tutti i diritti riservati © ERCO srl.

Catalogues and products are subject to improvements.

Colors and pictures in the catalogue are not binding and may slightly differ if compared with the true product since they are obtained by a printing process.

Possible differences between ready-made product and its representation cannot cause any complaint, since the purchase order is the only binding reference document.

The amount reported are indicative and may slightly vary due to the fact that our machining operations are performed manually.

Models are trade-marks registered.

All rights reserved © ERCO srl.
