

# ALSAFLOOR

LAMINATE FLOORING 2019

# Introduction

ALSAPAN, a family-run company located in Alsace, in eastern France, was founded in 1972 by Joseph Strub, a carpenter by trade. It now operates 5 manufacturing facilities in France, producing millions of kit furniture units and worktops every year.

Alsapan has been making laminate flooring since 1995, both under its own brand and under retailer private brands, to meet the requirements of its various markets. The only French manufacturer in the sector, the company offers a comprehensive choice of products in its ranges, with some 60 rustic and contemporary patterns sold throughout the world.

Alsapan's in-house research has, over the past few years, focused on coming up with innovative installation options, to allow consumers to personalise their interiors at will, as featured by the Unusuals range.

Consumers can now mix and match using planks of different widths and lengths:

- in a more bohemian style with planks of different widths
- or in the grand tradition of a herringbone pattern

We are continually renewing our creative ideas and you will find our latest designs in the new collection, which includes 8 new patterns, ranging from the highly original 550 Trade Wind to the stylishly contemporary 557 Black Pine. You're sure to find the pattern that matches your needs!

All ALSAFLOOR flooring features our 5G® fast and simple fitting system.

And this year, on top of our wide choice of laminate flooring, ALSAPAN has invested in a new rigid vinyl flooring production line!

Don't hesitate to get in contact with our sales representative to find out more about our VINYL flooring.

We hope and trust you will enjoy the 2019 collection and that we will soon be able to include you among our favoured customers.

---

**CÉCILE CANTRELLE**  
President

# A leading French manufacturer

## An environmentally-conscious company

**Innovation, research, and eco-responsibility** have always been part and parcel of our corporate DNA. Our innovations aim to reduce wood consumption and minimise our products' impact on the environment.

Our R&D sets out to continually heighten customer satisfaction and it is through you that we can show consumers our collections of easy-living products, within reach of all budgets.

All Alsapan flooring products are **PEFC™ certified**. The wood used in our flooring is sourced from sustainably-managed forests - we never use exotic woods or wood from tropical forests. Our production facility is geographically close to our raw material suppliers and retail outlets, which allows us to reduce shipping distances and CO2 emissions. Our Marlenheim facility is exemplary in its **environmentally-responsible actions**, which help maintain our planet's natural resources.

•  
Its roof is fitted with solar panels,

•  
Employees are actively seeking to reduce paper consumption and to recycle it,

•  
The plant uses production waste products as an energy source for heating the buildings and the machines

## A+, for a healthy habitat!

Introduced on 1 January 2012, the **health safety labelling** on product packaging gives consumers details of the amount of volatile substances released into the interior air by flooring and is ranked on a scale from Class A+ (very low emissions) to Class C (high level of emissions).

ALSAFLOOR products are ranked A+, with a formaldehyde emission rate of well under 10 µg/(m<sup>2</sup> x h), based on tests performed by an independent laboratory.

\*Information as to emissions of volatile compounds in the indoor air, which might be harmful to the health when inhaled, on a scale from Class A+ (very low emissions) to C (high emissions).

# Structures

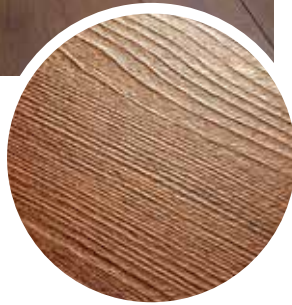

447 Malt oak

## Rustic texture

A discrete raised pattern produces a cosy, rustic effect.

409 Cassandra

## Matt wood structure

A soft, velvety matt look and feel.

529 Almond oak

## In-Registered texture

A raised surface that appears to follow the wood veins of the pattern and produces an effect of authenticity. Outstandingly realistic!

- With satin-finish surface for the decors: 410 / 448 / 449 / 450 / 420 / 518
- And with oiled-finish surface for the decors: 528 / 529 / 535 / 536 / 541 / 542.

621 Canaries oak

## In-Registered texture heliochrome

A mat / glossy effect (mat on the surface and glossy in the wood grain) for a deeper and more noticeable structure.

# For a better understanding

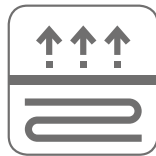

## PRODUCT CROSS-SECTIONS

## PICTOGRAMS TO MAKE LIFE EASIER!

Easy to clean

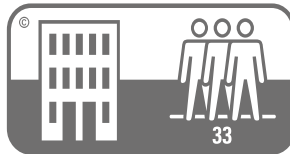

Suitable for laying with underfloor heating.

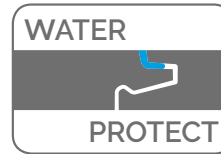

Dust-mites free

Panel average density

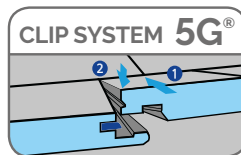

Classes of use: Heavy domestic and commercial use.

The wax layer on both sides of the joint creates a seal and prevents water ingress.

The boards are bevelled lengthwise and widthwise to produce an authentic look of the flooring of yesteryear. The joints are lacquered for easy cleaning and optimized tightness.

The 5G® locking system enables a significantly fast and easy installation. A reinforced plastic tongue on the short side of the floor panel results in a strong and robust locking, emitting a "click" sound and locking the planks vertically.

\* Information as to emissions of volatile compounds in the indoor air, which might be harmful to the health when inhaled, on a scale from Class A+ (very low emissions) to C (high emissions).

The EC symbol on all our products certifies that they are produced in compliance with currently applicable standards and that they can move freely between countries within the European Community.

Our products are made from wood taken from sustainably managed forests and PEFC certified.

# The accessories

**DON'T FORGET THE ACCESSORIES, ESSENTIAL FOR LAYING DOWN ALSAPAN FLOORINGS!**

Necessary for installation, we offer **underlays** to level the base floor and for acoustic and thermic insulation.

Coordinated with each **flooring design, skirting and profiles** bring the finishing touch that will make the difference.

**Additional accessories:**  
They ease the installation process.

For more information please see our **Accessories** catalogue

# Engineered wood collection

CC01 Hot coffee

## TECHNICAL FEATURES
